

Contents

A venture into the interior of natural diamond: genetic information and implications for the gem industry G.P. Bulanova, A.V. Varshavsky and V.A. Kotegov	377	Sapphire diffusion treatment and the behaviour of iron and titanium Yang Ruzeng, Yang Yuan and Xu Hongyi	455
As-grown, green synthetic diamonds C.M. Breeding, J.E. Shigley and A.H. Shen	387	Two remarkable taaffeite crystals from Sri Lanka K. Schmetzer, L. Kiefert, H-J. Bernhardt and M. Burford	461
Iridescent colours of the abalone shell (<i>Haliotis glabra</i>) T.L. Tan, D. Wong and P. Lee	395	Nephrite jade from Scortaseo, Switzerland D. Nichol and H. Giess	467
Diffraction Enhanced Imaging: a new X-ray method for detecting internal pearl structures J. Schlüter, M. Lohmann, J. Metge and B.Reime	401	Crossed filters revisited D. B. Hoover and B. Williams	473
A microscopy-based screening system to identify natural and treated sapphires in the yellow to reddish-orange colour range K. Schmetzer and D. Schwarz	407	Letters to the Editor	482
Growth of hexagonal bipyramidal ruby crystals by the evaporation of molybdenum trioxide flux K. Teshima, H. Kondo and S. Oishi	450	Abstracts	484
		Book Reviews	488
		Proceedings of the Gemmological Association and Gem Testing Laboratory of Great Britain and Notices	490

Cover Picture: Lepidocrocite inclusions in quartz.
Photography by Luella Dykhuis FGA DGA, Tucson, Arizona, U.S.A.

First Prize in the 2005 Photographic Competition (see p.490).
