

## Diamond Bibliography

This compilation lists all items on diamond published in *The Journal of Gemmology* since its beginning in 1947 through 2023. Articles are listed from most recent to oldest.

Articles that are more than approximately two years old are publicly available in the JoG archive at <https://gem-a.com/publications/the-journal-of-gemmology-archive>, and more recent articles are accessible to Gem-A Members at <https://gem-a.com/publications/the-journal-of-gemmology>.

**Banjarmasin Diamond: War booty from Borneo in Amsterdam (2023)**

By Suzanne van Leeuwen and J.C. (Hanco) Zwaan  
Volume 38, No. 7, 662–677

**Late nineteenth-century portraits engraved on diamond (2023)**

By Erik Schoonhoven  
Volume 38, No. 6, 616–620

**Gem Notes: Update: Colourless HPHT-grown synthetic diamonds testing as synthetic moissanite (2023)**

By Julia Griffith  
Volume 38, No. 6, 557–559

**Gem Notes: Treated orangey pink HPHT-grown synthetic diamond with 776.4 nm PL peak (2023)**

By Yuhan Cheng, Zhonghua Song, Yang Wang, Zhenping Lu and Di Pan  
Volume 38, No. 5, 440–441

**Gem Notes: Pink-orange CVD-grown synthetic diamonds with Ni impurities (2023)**

By Zhenping Lu, Yang Wang, Zhonghua Song, Yuhan Cheng and Di Pan  
Volume 38, No. 5, 437–439

**Gem Notes: CVD-grown diamond with unusual fluorescence colour appearance (2023)**

By Ramchandra G. Patil  
Volume 38, No. 5, 435–437

**Gem Notes: Reddish orange diamond coloured by hematite (2023)**

By Wenfang Zhu, Huihuang Li, Xiaoxia Zhu and Ying Ma  
Volume 38, No. 5, 433–435

**Gem Notes: Diamond within diamond: An analysis of the 'Beating Heart' (2023)**

By Samantha Sibley  
Volume 38, No. 5, 431–433

**Gem Notes: Black sapphire melee as a black diamond imitation (2022)**

By Yang Wang, Zhonghua Song and Ting Zheng  
Volume 38, No. 4, 325–326

**Gem Notes: Record-breaking 20 and 30 ct laboratory-grown CVD diamonds (2022)**

By John Pollard, Nikhil Alfred and Steven Rees  
Volume 38, No. 3, 225–227

**Gem Notes: Melee-sized colourless HPHT-grown synthetic diamond with red fluorescence (2022)**

By Wenfang Zhu, Xiaoxia Zhu, Zhonghua Song and Huihuang Li  
Volume 38, No. 2, 128–129

**Photochromism and photochromic gems: A review and some new data (part 2) (2022)**

By Féodor Blumentritt and Emmanuel Fritsch  
Volume 38, No. 1, 80–92

- Gem Notes: Synthetic moissanite testing as 'diamond' using diamond testers (2021)**  
By Ulrich Henn  
Volume 37, No. 8, 778–779
- Gem Notes: Treated greenish yellow diamond with brown radiation stains (2021)**  
By Jean–Pierre Chalain and Laura Speich  
Volume 37, No. 7, 680–683
- Gem Notes: Near–colourless HPHT–grown synthetic diamonds that test as synthetic moissanite (2021)**  
By Julia Griffith and Harold Dupuy  
Volume 37, No. 6, 575–577
- Revealing the formation secrets of the Matryoshka diamond (2021)**  
By Emmanuel Fritsch  
Volume 37, No. 5, 528–533
- Gem Notes: HPHT–grown near–colourless synthetic diamond with detectable GR1 defect (2021)**  
By Bo Gao, Zhonghua Song, Taijin Lu and Yongwang Ma  
Volume 37, No. 5, 467–469
- Gem Notes: Near–colourless CVD synthetic diamond with uncompensated boron (2021)**  
By Huiru Dai, Zhonghua Song, Taijin Lu and Yongwang Ma  
Volume 37, No. 5, 465–467
- Gem Notes: Pale yellow type IIa diamond coloured by H4 centres (2020)**  
By Wenfang Zhu, Zhonghua Song, Taijin Lu and Huihuang Li  
Volume 37, No. 4, 350–352
- Identification of type IIa blue CVD synthetic diamonds from Huzhou SinoC Semiconductor Co. in China (2020)**  
By Zhonghua Song, Taijin Lu, Hongming Liu, Huiru Dai, Jie Ke, Wenfang Zhu and Jian Zhang  
Volume 37, No. 3, 306–313
- Gem Notes: Diamonds from the Nassau Mountains, Suriname (2020)**  
By Renoesha Naipal, J.C. (Hanco) Zwaan, Salomon B. Kroonenberg, Leo M. Kriegsman and Paul R.D. Mason  
Volume 37, No. 2, 180–191
- Gem Notes: CVD synthetic diamonds identified in a parcel of light brown melee (2020)**  
By Thomas Hainschwang  
Volume 37, No. 1, 16–18
- Gem Notes: Kimberley diamond acquired by the Smithsonian Institution, and its fluorescence and phosphorescence characteristics revealed (2020)**  
By Jeffrey E. Post, Russell Feather and James E. Butler  
Volume 37, No. 1, 14–15
- Current status of Chinese synthetic diamonds (2019)**  
By Taijin Lu, Jie Ke, Yan Lan, Zhonghua Song, Jian Zhang, Shi Tang, Jun Su, Huiru Dai and Xuxu Wu  
Volume 36, No. 8, 748–757
- Selecting a diamond verification instrument based on the results of the Assure Program: An initial analysis (2019)**  
By Harold Dupuy and Jon C. Phillips  
Volume 36, No. 7, 606–619
- Gem Notes: Diamond mining at Theindaw, Myanmar (2019)**  
By Tay Thye Sun, U Nyunt Htay and Thet Tin Nyunt  
Volume 36, No. 7, 594–595
- Gem Notes: Drawing fire: An early illustration of sparkle in diamonds (2019)**  
By Jack M. Ogden  
Volume 36, No. 7, 595–596
- Gem Notes: The Nur al–'Ayn diamond, rephotographed (2019)**  
By Jack M. Ogden  
Volume 36, No. 7, 596–597

- Mr Hornby's Diamond: Its travels, diplomatic role and possible equation with the Nur al-'Ayn** (2019)  
By Jack M. Ogden  
Volume 36, No. 6, 512–522
- Onshore and nearshore diamond mining on the south-western coast of Namibia: Recent activities and future exploration techniques** (2019)  
By Jana Jacob and Gottfried Grobbelaar  
Volume 36, No. 6, 524–532
- Gem Notes: Searching for the Sancy diamond** (2019)  
By Jack M. Ogden  
Volume 36, No. 6, 507–508
- Gem Notes: Chidliak: A sustainable future diamond mine in Canada?** (2019)  
By Jon C. Phillips  
Volume 36, No. 5, 412–413
- Gem Notes: A treated mixed-type synthetic yellow diamond** (2018)  
By Saengthip Saengbuangamlam, Marisa Maneekrajangsaeng and Tasnara Sripoonjan  
Volume 36, No. 4, 294–296
- Gem Notes: Reduced phosphorescence of type II HPHT-grown synthetic diamonds after electron beam irradiation** (2018)  
By Hiroshi Kitawaki, Kentaro Emori and Keiji Koide  
Volume 36, No. 3, 206–208
- What truly characterises a chameleon diamond? An example of an atypical 25.85 ct stone** (2018)  
By Emmanuel Fritsch and Aurélien Delaunay  
Volume 36, No. 2, 142–151
- A thick overgrowth of CVD synthetic diamond on a natural diamond** (2018)  
By Shi Tang, Jun Su; Yongwang Ma, Jie Ke, Jun Zhang, Taijin Lu, Zhonghua Song and Houxiang Liu  
Volume 36, No. 2, 134–141
- A preliminary SIMS study using carbon isotopes to separate natural from synthetic diamonds** (2018)  
By Hao A.O. Wang, Laurent E. Cartier, Lukas P. Baumgartner, Anne-Sophie Bouvier, Florence Bégué, Jean-Pierre Chalain and Michael S. Krzemnicki  
Volume 36, No. 1, 38–43
- Gem Notes: Diamond mining at Namdeb's southern coastal mines, Namibia** (2018)  
By Brendan Laurs  
Volume 36, No. 1, 16–18
- Naming of the Koh-i-Noor and the origin of Mughal-cut diamonds** (2017)  
By Anna Malecka  
Volume 35, No. 8, 738–750
- Camels, courts and financing the French Blue diamond: Tavernier's sixth voyage** (2017)  
By Jack M. Ogden  
Volume 35, No. 7, 640–650
- Gem Notes: A research facility in The Netherlands for the HPHT growth of synthetic diamonds and HPHT treatment** (2017)  
By J.C. (Hanco) Zwaan and Branko Deljanin  
Volume 35, No. 6, 491–494
- Gem Notes: Recent alluvial diamond mining in South Africa** (2017)  
By Brendan M. Laurs  
Volume 35, No. 6, 484–485
- Letters: Comment on the apparent anomalous reflectance of a Sumitomo synthetic diamond** (2017)  
By Alan T. Collins  
Volume 35, No. 5, 450
- Gem Notes: A zoned type IaB/Ila diamond of probable 'superdeep' origin** (2017)  
By Aurélien Delaunay and Emmanuel Fritsch  
Volume 35, No. 5, 397–399

- Practical Gemmology: Anomalous behaviour of a Sumitomo synthetic diamond on the reflectance meter** (2016)  
By Alan Hodgkinson  
Volume 35, No. 4, 274–275
- A diamond with a transient 2804 cm<sup>-1</sup> absorption peak** (2016)  
By Jianjun Li, Chengxing Fan, Shuxiang Chen and Guihua Li  
Volume 35, No. 3, 248–252
- Identification of colourless HPHT-grown synthetic diamonds from Shandong, China** (2016)  
By Zhonghua Song, Taijin Lu, Shi Tang, Jie Ke, Jun Su, Bo Gao, Ning Hu, Jun Zhang, Jun Zhou, Lijun Bi and Dufu Wang  
Volume 35, No. 2, 140–147
- The Great Mughal and the Orlov: One and the same diamond?** (2016)  
By Anna Malecka  
Volume 35, No. 1, 56–63
- Identification of a CVD synthetic diamond with a ‘tree ring’ growth pattern** (2015)  
By Yan Lan, Rong Liang, Taijin Lu, Yong Zhu, Tianyang Zhang, Xuan Wang, Jian Zhang, Hong Ma and Zhonghua Song  
Volume 34, No. 8, 702–710
- Type Ib yellow to brownish yellow CVD synthetic diamonds seen at CGL** (2015)  
By Hiroshi Kitawaki, Mio Hisanaga, Masahiro Yamamoto and Kentaro Emori  
Volume 34, No. 7, 594–604
- Gem Notes: Diamond horse-head carving** (2015)  
By Jayshree Panjekar  
Volume 34, No. 7, 571–572
- The first undisclosed colourless CVD synthetic diamond discovered in a parcel of natural melee-sized diamonds** (2015)  
By Thomas Hainschwang and Franck Notari  
Volume 34, No. 6, 518–522
- The Rhodesian Star: An exceptional asteriated diamond** (2014)  
By Thomas Hainschwang, Franck Notari and Erik Vadaszi  
Volume 34, No. 4, 306–315
- Objective diamond clarity grading** (2014)  
By Michael D. Cowing  
Volume 34, No. 4, 316–332
- Gem Notes: First CVD synthetic diamond discovered in a parcel of natural melee-sized diamonds** (2014)  
By Thomas Hainschwang  
Volume 34, No. 4, 300–302
- Evolution of diamond cuts in Portuguese jewellery and sacred objects during the 16th–18th centuries: A brief review** (2014)  
By Rui Galopim de Carvalho  
Volume 34, No. 2, 2014, 114–128
- Gem Notes: A natural diamond showing a ‘synthetic’ pattern in the DiamondView** (2014)  
By Aurélien Delaunay and Emmanuel Fritsch  
Volume 34, No. 2, 107–108
- Gem Notes: Two synthetic diamonds identified in a parcel of 7,000 melee-size yellow-brown diamonds** (2014)  
By Aurélien Delaunay and Emmanuel Fritsch  
Volume 34, No. 1, 16–18
- The identification features of undisclosed loose and mounted CVD synthetic diamonds which have appeared recently in the NGTC laboratory** (2012)  
By Zhonghua Song, Taijin Lu, Yan Lan, Meidong Shen, Jie Ke, Jianhui Liu and Yubing Zhang  
Volume 33, No. 1–4, 45–48

- High pressure high temperature treatment of diamonds — A review of the patent literature from five decades (1960–2009)** (2010)  
By Karl Schmetzer  
Volume 32, No. 1–4, 52–65
- The over-grading of blue-fluorescent diamonds: The problem, the proof and the solutions** (2010)  
By Michael D. Cowing  
Volume 32, No. 1–4, 38–51
- Identification of CVD-grown synthetic melee pink diamond** (2010)  
By Hiroshi Kitawaki, Ahmadjan Abduriyim, Jun Kawano and Makoto Okano  
Volume 32, No. 1–4, 23–30
- A place for CZ masters in diamond colour grading** (2008)  
By Michael D. Cowing  
Volume 31, No. 3–4, 77–83
- A fancy reddish brown diamond with new optical absorption features** (2008)  
By Taijin Lu, Tatsuya Odaki, Kazuyoshi Yasunaga and Hajime Uesugi  
Volume 31, No. 3–4, 73–76
- Accordance in round brilliant diamond cutting** (2007)  
By Michael D. Cowing  
Volume 30, No. 5–6, 320–330
- As-grown, green synthetic diamonds** (2005)  
By Christopher M. Breeding, James E. Shigley and Andy H. Shen  
Volume 29, No. 7–8, 387–394
- A venture into the interior of natural diamond: Genetic information and implications for the gem industry** (2005)  
By G.P. Bulanova, A.V. Varshavsky and V.A. Kotegov  
Volume 29, No. 7–8, 377–386
- Describing diamond beauty—Assessing the optical performance of a diamond** (2005)  
By Michael D. Cowing  
Volume 29, No. 5–6, 274–280
- HPHT treatment of different classes of type I brown diamonds** (2005)  
By Thomas Hainschwang, Andrey Katrusha and Heiner Vollstaedt  
Volume 29, No. 5–6, 261–273
- Symmetrical clouds in diamond — The hydrogen connection** (2002)  
Wuyi Wang and Wendi Mayerson  
Volume 28, No. 3, 143–152
- A highly unusual, 7.34 ct, Fancy Vivid purple diamond** (2002)  
By Thomas M. Moses, John M. King, Wuyi Wang and James E. Shigley  
Volume 28, No. 1, 7–12
- A discussion on the origin of irregular shapes of type II diamonds** (2001)  
By Ichiro Sunagawa  
Volume 27, No. 7, 417–425
- The colour of diamond and how it may be changed** (2001)  
By Alan T. Collins  
Volume 27, No. 6, 341–359
- Diamond synthesis** (2001)  
By William Butler  
Volume 27, No. 6, 360
- Identification of a new type of laser treatment (KM treatment) of diamonds** (2001)  
By Yoichi Horikawa  
Volume 27, No. 5, 259–263
- Diamond brilliance: Theories, measurement and judgement** (2000)  
By Michael D. Cowing  
Volume 27, No. 4, 209–227

- Investigation of seven diamonds, HPHT treated by NovaDiamond (2000)**  
By F. De Weerdts and J. Van Royen  
Volume 27, No. 4, 201–208
- Identification of GE POL diamonds: A second step (2000)**  
Jean-Pierre Chalain, Emmanuel Fritsch and Henri A. Hänni  
Volume 27, No. 2, 73–78
- An independent gemmological examination of six De Beers synthetic diamonds (2000)**  
By Ian C.C. Campbell  
Volume 27, No. 1, 32–44
- The Indian diamond-cutting industry: An assessment of the number of cutters and the size distribution of their production (1999)**  
By Menahem Sevdermish, A.R. Miciak and A.A. Levinson  
Volume 26, No. 7, 439–446
- Further aspects of the history of rose-cut diamonds (1998)**  
By Herbert Tillander  
Volume 26, No. 4, 219–221
- Kyanite in diamond identified by Raman analysis (1998)**  
By John I. Koivula and Shane Elen  
Volume 26, No. 4, 222–225
- The distinction of natural from synthetic diamonds (1995)**  
By Ichiro Sunagawa  
Volume 24, No. 7, 485–499
- Some observations on a gem-quality synthetic yellow diamond produced in the region of Vladimir (Russia) (1995)**  
By Federico Sosso  
Volume 24, No. 5, 363–368
- The glass filling of diamonds. Part 2: A possible filling process (1994)**  
By James B. Nelson  
Volume 24, No. 2, 94–103
- Diamond replicas – Possible but just (1993)**  
By Richard Willmott  
Volume 23, No. 8, 486–490
- The glass filling of diamonds. Part 1: An explanation of the colour flashes (1993)**  
By James B. Nelson  
Volume 23, No. 8, 461–472
- Gemmological properties of type Ia diamonds with an unusually high hydrogen content (1993)**  
By Emmanuel Fritsch and Ken Scarratt  
Volume 23, No. 8, 451–460
- A notable red-brown diamond (1993)**  
By James E. Shigley and Emmanuel Fritsch  
Volume 23, No. 5, 259–266
- 'The most unkindest cut of all' – Recutting the Koh-i-Nûr (1992)**  
By Nigel B. Israel  
Volume 23, No. 3, 176
- Cathodoluminescence (CL) and CL spectra of De Beers' experimental synthetic diamonds (1992)**  
By Johann Ponahlo  
Volume 23, No. 1, 3–17
- Two types of historical traps: On 'diamond softening' and the 'antiquity of emerald oiling' (1991)**  
By Kurt Nassau  
Volume 22, No. 7, 399–403
- Testing of colourless natural diamonds by room temperature optical absorption (1990)**  
By G. Lifante, F. Jaque, M. A. Hoyos and S. Leguey  
Volume 22, No. 3, 142–145

- The four optical attributes of a diamond** (1989)  
By James B. Nelson  
Volume 21, No. 7, 434–447
- Black diamonds of type IIb** (1989)  
By S. Scandella  
Volume 21, No. 7, 411
- The Dresden Green** (1989)  
By G. Bosshart  
Volume 21, No. 6, 351–362
- The background to diamond grading** (1987)  
By Eric C. Emms  
Volume 20, No. 7–8, 478–481
- The separation of natural from synthetic diamonds using the Barkhausen effect** (1987)  
By David Minster  
Volume 20, No. 7–8, 458–459
- Damage to cut diamonds** (1987)  
By H.A. Hänni and G. Bosshart  
Volume 20, No. 6, 339–343
- The Gem-trak gemstone identifier — A test report** (1986)  
By Peter Read  
Volume 20, No. 4, 242–243
- The brilliant cut — Analysis of weight by calculation** (1986)  
By S.J.A. Currie  
Volume 20, No. 3, 171–176
- The very sphinx of diamonds** (1986)  
By A.E. Farn  
Volume 20, No. 3, 166–167
- New developments in spectroscopic methods for detecting artificially coloured diamonds** (1986)  
By G.S. Woods and A.T. Collins  
Volume 20, No. 2, 75–82
- An unusual star diamond** (1986)  
By S.J.A. Currie  
Volume 20, No. 1, 52
- Accidental diamond coatings** (1986)  
By Pamela J. Abramson  
Volume 20, No. 1, 34
- A note on the history of diamond synthesis** (1985)  
By Kurt Nassau  
Volume 19, No. 8, 660–663
- The Rayner DiamondScan — A test report** (1985)  
By Peter Read  
Volume 19, No. 6, 521–527
- Siberian diamonds** (1984)  
By R.V. Huddleston  
Volume 19, No. 4, 348–369
- Further light on the Sancy diamond** (1984)  
By R. Keith Mitchell  
Volume 19, No. 2, 144–146
- A brief description of a spectacular 56.71-carat tabular diamond** (1984)  
By E.A. Jobbins, R.R. Harding and K. Scarratt  
Volume 19, No. 1, 1–7

- The Gemtek Gemmologist — A test report** (1983)  
By Peter G. Read  
Volume 18, No. 7, 643–650
- A diamond doublet and the infrared reflectometer** (1983)  
By R. Keith Mitchell  
Volume 18, No. 5, 385
- Mineral inclusions contribute towards elucidating the genesis of the diamond** (1982)  
By E. Gübelin  
Volume 18, No. 4, 297–320
- The thermal properties of gemstones and their application to thermal diamond probes** (1982)  
By Donald B. Hoover  
Volume 18, No. 3, 229–239
- Colour centres in diamond** (1982)  
By A.T. Collins  
Volume 18, No. 1, 37–75
- Star inclusions in diamond** (1981)  
By R. Keith Mitchell  
Volume 17, No. 8, 584–588
- Diamond production in Guyana** (1981)  
By R.J. Lee  
Volume 17, No. 7, 465–479
- Direct radiography of diamond jewellery** (1981)  
By A.J. Moule and G. Brown  
Volume 17, No. 3, 300–305
- Spectroscopic investigation of a canary yellow diamond** (1980)  
By A.T. Collins  
Volume 17, No. 4, 213–222
- Two reports: (1) Alternative refractometer light sources; (2) Thermal diamond probes** (1980)  
By Peter G. Read  
Volume 17, No. 2, 82–94
- Report on the Gem Diamond Pen** (1979)  
By P. G. Read  
Volume 16, No. 7, 465–469
- Investigating the visible spectra of coloured diamonds** (1979)  
By Kenneth Scarratt  
Volume 16, No. 7, 433–447
- Diamond notes** (1979)  
By Peter G. Read  
Volume 16, No. 6, 370–371
- Another brief look at the Sancy diamond** (1978)  
By Herbert Tillander  
Volume 16, No. 4, 221–228
- The 'Diamond Eye' and the 'Lustermeter': A review** (1978)  
By E.A. Jobbins  
Volume 16, No. 4, 239–243
- Automation in the sorting and sizing of rough diamonds** (1977)  
By Peter G. Read  
Volume 15, No. 8, 409–422
- Trends in diamond synthesis** (1977)  
By Dennis Elwell  
Volume 15, No. 7, 377–283

- A brief look at the Sancy diamond (1977)**  
By E.A. Jobbins  
Volume 15, No. 5, 240–242
- The twenty-five largest diamonds in the crown jewels of Iran (1976)**  
By G.G. Waite  
Volume 15, No. 2, 53–61
- Topcon Diamond Proportion Hand Scope (1975)**  
By Eric Bruton  
Volume 14, No. 7, 330–332
- Before and after: An illustrated documentation on laser drilling of diamond (1974)**  
By G. Lenzen  
Volume 14, No. 2, 69–72
- Dealing with diamonds: Including some practical methods of measuring diamonds for cut and weight (and other set stones for weight) (1974)**  
By David Wilkins  
Volume 14, No. 2, 79–83
- Diamond testing by immersion—A useful gadget (1974)**  
By David Wilkins  
Volume 14, No. 1, 27–28
- A further note on diamonds, real and imitation, in the Roman period (1973)**  
By Jack M. Ogden  
Volume 13, No. 8, 315–317
- The girdle of the brilliant-cut diamond (1973)**  
By Gübelin Laboratory  
Volume 13, No. 5, 161–168
- Roman imitation diamonds (1973)**  
By Jack M. Ogden  
Volume 13, No. 5, 179–180
- The origins of 'diamond' (1972)**  
By S.B. Nikon Cooper  
Volume 13, No. 2, 51–53
- A different point-cut diamond (1971)**  
By Herbert Tillander  
Volume 12, No. 7, 316–321
- Inclusions in the Panna diamonds of India (1971)**  
By Sudha Phukan  
Volume 12, No. 5, 157–166
- The Scandinavian diamond nomenclature (1971)**  
By Herbert Tillander  
Volume 12, No. 5, 167–170
- Diamond news from India (1970)**  
By N. Viswanath  
Volume 12, No. 2, 41–43
- Diamond proportions (1969)**  
By F.S.H. Tisdall  
Volume 11, No. 8, 315–319
- Coloured diamonds—Natural or artificially treated? (1969)**  
By Charles A. Schiffmann  
Volume 11, No. 7, 233–255
- Syngenetic mineral inclusions in diamond as identified by X-ray analysis (1969)**  
By J. Harris  
Volume 11, No. 7, 256–262

- A study of some gold mine diamonds** (1969)  
By F.A. Raal  
Volume 11, No. 6, 211–215
- An Indian ultra-flat brilliant-cut diamond** (1968)  
By Herbert Tillander  
Volume 11, No. 4, 125–126
- The Saxon fifty-carat diamond** (1968)  
By Herbert Tillander  
Volume 11, No. 3, 81–83
- Dispersion in diamond** (1968)  
By Basil W. Anderson  
Volume 11, No. 2, 42–45
- The significance of the culet of old brilliant-cut diamonds** (1967)  
By W.F. Eppler  
Volume 10, No. 7, 218–223
- Six centuries of diamond design** (1965)  
By Herbert Tillander  
Volume 9, No. 11, 380–401
- Radio-active diamonds** (1965)  
By Robert Webster  
Volume 9, No. 10, 352–353
- The classification of diamond on the basis of their absorption and emission of light** (1963)  
By Basil W. Anderson  
Volume 9, No. 2, 44–54
- Worn edges on diamonds** (1963)  
By Robert Webster  
Volume 9, No. 1, 7–8
- Lines and line systems in the fluorescence spectra of diamond** (1962)  
By Basil W. Anderson  
Volume 8, No. 5, 193–292
- Ultra-violet light as an aid to gem testing** (1962)  
By Robert Webster  
Volume 8, No. 5, 175–192
- The Great Table diamond of Tavernier** (1962)  
By S. Tolansky  
Volume 8, No. 5, 171–174
- A new style of diamond cutting** (1961)  
By Anonymous  
Volume 8, No. 4, 153–154
- The 'Colenso' diamond** (1961)  
By Jessie M. Sweet and A.G. Couper  
Volume 8, No. 3, 84–85
- Inclusions in diamond** (1961)  
By W.F. Eppler  
Volume 8, No. 1, 1–13
- Luminescence of a large pink diamond** (1960)  
By Basil W. Anderson  
Volume 7, No. 6, 216–221
- Diamond inclusion** (1960)  
By Robert Webster  
Volume 7, No. 6, 220

- Some diamond problems** (1959)  
By Robert Webster  
Volume 7, No. 3, 79–99
- Note on the Hope diamond** (1958)  
By Anonymous  
Volume 6, No. 8, 370
- Arkansas diamonds** (1957)  
By Hugh Leiper  
Volume 6, No. 2, 63–71
- Identification of diamonds by their fluorescence** (1956)  
By W.F. Cotty  
Volume 5, No. 7, 339–341
- Doubling of the back facets in diamond** (1956)  
By R. Keith Mitchell  
Volume 5, No. 6, 307–309
- Diamond selling practices in America** (1956)  
By Richard T. Liddicoat  
Volume 5, No. 6, 310–318
- Mr. Clayton's diamond** (1955)  
By Jessie M. Sweet and A.A. Moss  
Volume 5, No. 3, 125–130
- Synthetic diamonds** (1955)  
By Anonymous  
Volume 5, No. 3, 130
- Indian diamonds** (1955)  
By S.M. Mathur  
Volume 5, No. 2, 73–76
- Diamond synthesis achieved** (1955)  
By Basil W. Anderson  
Volume 5, No. 2, 59–64
- Premier mine diamond** (1954)  
By Anonymous  
Volume 4, No. 7, 300
- Recent research on diamonds including artificial coloration** (1954)  
By J.F.H. Custers  
Volume 4, No. 7, 305–308
- New diamond gauge** (1953)  
By Anonymous  
Volume 4, No. 3, 138
- The craft of diamond polishing** (1953)  
By O. Holstein  
Volume 4, No. 1, 14–23
- South African diamond mines revisited** (1953)  
By P. Grodzinski  
Volume 4, No. 1, 38–44
- The diamond industry 1950** (1952)  
By W.F. Foshag and George Switzer  
Volume 3, No. 6, 230–233
- Inclusions in diamonds** (1952)  
By Eduard Gübelin  
Volume 3, No. 5, 175–187

**The James Bay Diamond Syndicate (1951)**

By D.S.M. Field

Volume 3, No. 1, 15–21

**Diamond pipe discovered in India (1950)**

By D.S.M. Field

Volume 2, No. 8, 347

**The question of diamonds in Canada (1949)**

By D.S.M. Field

Volume 2, No. 3, 103–111

**Atomic structure of diamonds (1949)**

By Basil W. Anderson

Volume 2, No. 1, 1–4

**A new method for fingerprinting diamonds (1949)**

By A.S. Alexander

Volume 2, No. 1, 16–17

**A talk on diamonds (1948)**

By R. David Dale

Volume 1, No. 5, 5–11

**An interesting etched diamond (1947)**

By Robert Webster

Volume 1, No. 3, 5–9

**The diamond industry in 1945 (1947)**

By Jeweler's Circular-Keystone

Volume 1, No. 1, 51–55
